

## ENVIROTAS GROUP PLC

A growth company with proven project development positioned to offer a positive future.

Envirotas is well advanced in the development of a complex which is to manufacture potable ethanol to be blended to produce high quality vodka and other alcoholic beverages for the UK and EU markets. The company will be installing new state of the art world standard equipment which will include a rectification plant and bottling lines. Both alcoholic and non alcoholic beverages will be bottled. Several options for the location of the facility are being considered. Project build will commence in 2010 with production scheduled to start in early 2011.

Envirotas heads a consortium of expertise to support the development of established or start-up projects. We have extensive experience with successful projects across renewable energy industries as well as diverse projects in the pharmaceutical and beverage industries.
